AUSTRALIA

MOVING TO QUEENSLAND

Brisbane is Australia's third largest city, trailing behind Sydney and Melbourne. There are both public and private schools adequately catered for and you'll be sure to find a school that is suited to your child.

The climate has been described as "Beautiful one day; Perfect the next" and with bright sunny days and balmy nights who could disagree? It is a surfer's heaven with the beautiful beaches of the Sunshine and Gold Coast's right on your door step and the region boasts an abundance of great fishing and sailing spots.

The Brisbane property market is strong and demand has lifted in line with the state's soaring economic growth. It is predicted to continue to shine brightly, just like the weather.

Fresh experiences, fresh adventures and a fresh approach to life is what Brisbane is all about. You have diverse places to visit all throughout Queensland, whether you are looking for a relaxing or action packed getaway you will find it all accessible from Brisbane. With pristine beaches to lush mountain hideaways there is something for everyone.

You'll also be pleasantly surprised with the open, friendly and relaxed attitude of the locals!

The Brisbane office is located in the centre of the CBD within 3 minutes of trains, buses and ferries. Your shopping needs will be completely satisfied by the open-plan, Queen Street Mall which is regarded as Queensland's premier shopping destination.

URS
