

environment policy

URS Australia and New Zealand is an industry-leader recognised for integrity, innovation and technical excellence in the fields of engineering, construction management and the sciences applied to the earth and its environment.

Consistent with our vision and values we are committed to environmental stewardship and continuous improvement of our environmental performance.

To achieve this outcome we will:

- *Identify, manage and reduce the environmental footprint of our own operations and help our clients to reduce their footprint;*
- *Apply principles of waste minimisation and resource efficiency to all of our activities;*
- *Consider the environmental impacts of goods and services in our procurement decisions;*
- *Incorporate pollution prevention practices into our operating procedures and processes;*
- *Respect ecological, heritage and biodiversity values;*
- *Include the expectations of our stakeholders related to the environment;*
- *Comply with all applicable environmental legal requirements and apply responsible standards where legislation and regulations do not exist;*
- *Implement and maintain an internationally recognised environmental management system (ISO 14001 certified) that facilitates continuous improvement in environmental performance;*
- *Provide the necessary resources and training to ensure the objectives and targets derived from this policy are achieved;*
- *Report openly and honestly on our environmental performance; and*
- *Ensure all our staff, suppliers and subcontractors are made aware of the requirements of this policy.*

This policy will be reviewed at least annually to ensure that it continues to accurately reflect the scope of our activities.

David Williamson
Managing Director – URS Asia Pacific
